Dear all,

I have not received any objections or further information in respect to the Flood Zone map challenge to the South of Armthorpe. I understand that Rachel Jones, Sustainable Places Tech Spec, has discussed these outputs and the reasons for change with the [redacted] and there were no additional concerns forthcoming.

Therefore, we will adopt the revised Flood Zone outline (as attached).

Kind regards,

David Woolley

Subject: South of Armthorpe/Nutwell, Doncaster (SE6297703467) Flood Zone Map Challenge

Dear all,

We have received a Flood Zone challenge for an area to the south of Armthorpe/Nutwell, Doncaster (SE6297703467). Currently, the Environment Agency's Flood Zone for this area has been derived from the Isle of Axholme Flood Risk Management Strategy modelling work. A justification for the Flood Zone challenge has been provided by JBA Consulting in the attached letter '2013s7046-D-L003-1.pdf'. The Environment Agency has internally reviewed the challenge and have no objections to the proposed Flood Zone revision.

I have provided the proposed revised Flood Zone extent for your consideration.

Please can I ask you, or another representative from your Authority to review the plans attached. If your authority has any additional information to justify the previous historic flood outline, or have concerns regarding the new flood extent then please contact me on the details below. Please can I have your comments by the 3rd February 2014.

Kind regards,

David Woolley
Flood Risk Management Officer
